CONTENTMENT KEY TO HEALTH & HAPPINESS

Health Officer Foulks Says Discontent Impairs Efficiency

IT BREEDS DISEASE

Good Health May Be Turned Into Riches But Riches Cannot Be Turned Into Good Health.

A contented man is a happy man indeed, and those who come in contact with him are bound to feel his influence for good, yet look upon him with a certain degree of envy, feeling that he is really getting more out of life than they are. And he is without any doubt, for life is much what you wish to make it!

A home can be made a pleasant and peaceful refuge, a quiet port and safe harbor into which we can run to escape the many sudden storms of life. Or on the other hand, it can be made a place of discord, petty strife, useless arguments and endless complaints—an atmosphere of general discontent.

No person can long remain in such an atmosphere and still keep health in mind and body. Such a condition is destructive.

No person can be discontented and happy, and an unhappy man cannot long remain physically and mentally well.

Discontent is purely a state of mind. It is looking at life from the wrong point of view. The discontented man assumes that things are all wrong, hence he cannot recognize good when he sees it, and he soon gets into such an abnormal mental state that he would hate to be forced to admit that anything could be good.

And the worst of it is this disease—for I cannot name it otherwise—is highly infectious. To prove this statement I need only call attention to the general unrest and discontent now spreading like a contagious disease all over the country at the present time.

To be happy and contented with your lot does not mean that you can sit down and dream away your life in peace. Far from it. The truly happy and contented man is a ray of sunshine, lighting up the darker paths of life. He is glad he is alive and able to see the bright side of things. No cloud is too black to prevent him from seeing its silver lining. Being happy and contented, he sees things with a clear vision and strives always to move onward and upward to better things, lifting others with him.

He derives a peculiar joy in doing good, and as he benefits others and makes life better about him, he adds to his own peace of mind and contentment. He is a constant seeker after human happiness and he finds it! Mark that point well.

Such a man is a student of nature. She is the one great teacher of the human race. Her book is always open, but we must study. Her store house is full and she is liberal, but we must render her some service. She is kind and sympathetic, but we must obey her laws. Our fate is in our own hands. Our actions are under our own control. Our bodies are in our own keeping. And our minds file away a record of it all.

The man who thinks clean, lives clean and keeps his surroundings clean, is storing up health and happiness in a bank that never fails to pay the highest rate of interest. Money alone brings neither health nor happiness. The rich man often has a poor stomach! Good health may be turned into riches, but riches cannot be turned into good health.

"Laugh, and the world laughs with you, weep, and you weep alone."

YOUNG MAN CONFESSES

Tells of Deadly Assault Upon Man Along Lonely Road Near Alexandria.

By appealing to his sense of right in the name of his mother and dead wife, the Richmond police Saturday broke down the defiant defense of Fred Warren, and amid a flood of tears the young man confessed to Captain of Detectives Alex S. Wright he was the man wanted for deadly assault and robbery of a Washington chauffeur.

This was the statement given out at Police Headquarters yesterday afternoon. Expecting to be browbeaten and put through a "third degree," Warren was completely taken aback when Captain Wright put a fatherly hand upon his shoulder and pleaded with him to consider his mother, his three sisters and his dead wife.

Appealing to the young man's better nature and talking to him as would a father, the detective captain asked Warren to tell only the truth, and, if guilty, not to add perjury to his offenses against the law.

Within fifteen minutes after being ushered into Captain Wright's office, the young man had asked to make a complete confession, the police state. Although there is some doubt about certain parts of the confession, the police said they were confident the statement of the prisoner were in the main true.

Warren is 28 years of age and was formerly of Holston, Washington County, Va. The affair, the result of which brought about his arrest, happened on Wenesday evening of last week, when he took a ride in an automobile with a chauffeur known as James Caffes, from Washington. On Thursday afternoon at 2 o'clock a laborer found Caffes lying in a deserted highway near Occoquan, in a pool of blood, unconscious, with his throat cut.

On Friday Warren was placed under arrest in Richmond when he is said to have attempted to sell Caffes' automobile for one third of its value.

According to the confession made by Warren, he hired Caffes to drive him to Alexandria, but, according to his statement the chauffeur attempted to force him to go first after some liquor. He refused and attempted to leave the car, according to his confession, when Caffes attacked him.

In the ensuing fight Caffes drew a knife and threatened to kill Warren, the confession states, but the latter took it away from his adversary and cut his throat with it. Warren denies robbing Caffes of $63, which Caffes', who did not die, but is now in a Washington hospital in a serious condition, declares he did.

Detective Thomas Sweeney and F. M. Alligood, of Washington, took the prisoner in charge after he had signed the confession and will take him back to Washington for trial by automobile.

LIQUOR WITH A "KICK"

Among the cases before the Police Court this morning was that of Daniel Coffee, who was charged with violating the prohibition law by selling intoxicants. The evidence showed that a man named G. T. Groome had purchased a quart of so-called whisky from Coffee, paying him eleven dollars for the same. Later he purchased a pint of the same decoction, paying five dollars and a half. Groome drank the stuff and was knocked out entirely, sleeping eighteen hours. The victim, while not disposed to talk had the liquor proven satisfactory, thought the time had come when the attention of the police department should be called to Coffee's operations, and the latter was arrested and held for the grand jury.

BIG "V" LADS WIN

Virginia Athletic Club Defeats Curb Eleven in Fast Game, 26 to 0

The Virginia Athletic Club defeated the Curb Athletic Club of Washington yesterday in a well played game on the High School field, 26 to 0, furnishing the only sporting event of the day in Alexandria.

From the first kickoff it was evident that the Washington eleven was outclassed. Coach Cockrell's fast club carried the ball from the kickoff down the field until Tom Bowen went over for the first score of the contest, just three minutes after the oval was put in play.

The improvement shown in the work of the local club was again in evidence. Team work was the keynote, and the backfield worked together like a well oiled piece of machinery. Capt. Nugent handled the team like a veteran, while the line plunging activities of Jimmy Alexander and Coodlo Owens made the scores possible.

Johnny Duncan, Tommy Cockrell, Leonard Ford, Buck Edmonds, and Floyd Shinn played great football among the forwards, the former smearing several plays behind the line. Next Sunday the Virginias will play the Washington All-Stars in a benefit contest for Yank Curtain, the Dreadnought fullback who was badly injured here several weeks ago.

SEMINOLE PLAYERS will not PLAY.

PARTY

new Labor party
hing less than the
f the "Union of All
e scheme, as outlined
se of the constitution
at the recent convention in
, provides for the admission
membership of all who work
ith hands or brain." There is
o concrete statement of the arti-
cles of faith to which the members
must subscribe, so the party simply
takes on the complexion of a vast
town meeting not yet in session.

In other words, as the Philadel-
phia Record says, "everybody is in-
vited to come in and express his
views, or hers—for a special bid is
made for the female vote. The chief
effort, of course, is to enlist the
sympathy of the "hand workers,"
but the inclusion of those who la-
bor princially with their brains—
or what passes for such—was ab-
solutely necessary, otherwise those
who were most instrumental in
fathering the new party would
have automatically barred them-
selves out. The organization was
conceived and started upon its way
by men who love to pose as plain
working men, but the work of whose
hands is mainly comprised in ora-
torical gestures of scorn and nega-
tion of all organized government.
The mild Socialists are to the fore
in this movement, but the deeper
and darker Reds are immediately
behind them."

WEEDING OUT RADICALS

The action of William H. John-
on, President of the International
Association of Machinists, in ex-
elling certain radicals from the
rganization, is hailed with delight
y conservative members of unions
verywhere. Especial care should
e taken to keep such elements out
f the ranks of organized labor.

Some of the head centres of labor
nions are victims of Bolshevism,
nd at times they do not mince
ords. The action of Mr. Jenkins
hould be an example to all organi-
ations of working men.

That there is a well developed
lot by radicals to capture organ-
ized labor and use ther power to
foment strife and undermine the
Government of the United States
is no longer a theory. It is a
proved fact. Mr. Johnson speaks
from knowledge when he says that
the advocates of I. W. W.ism and
Bolshevism have been joining the
unions with the express purpose of
erculating their propaganda. He
sees the danger not only to intelli-
gent and patriotic labor, but to so-
cety at large. He intends to meet
it courageously.

Richmond, Dec. 1.—Approximate-
y seventy plants in Richmond are
affected by the drastic coal curtail-
ment orders now being enforced in
this district, limiting fuel to con-
sumers in preferred classes.

Tobacco plants will suffer the
greatest hardships from the fuel
risis in Richmond, it was stated
esterday. There are forty-five of
hese firms in Richmond which will
ave to suspend operations in the
vent that coal is not forthcoming
n the very near future, according
o operators. There are over a
score of other kinds of business
which are barred from the five pri-

**Several Important Towns Suffer
Thousands of Dollars Loss
to Property**

Indianapolis, Dec. 1.—Two men
dead in Indianapolis, 1 woman kill-
ed at Muncie, and thousands of dol-
lars' damage to property was the
toll of a windstorm that swept the
State of Indiana Saturday after-
noon. Scores of men, women and
children in Indianapolis were more
or less seriously injured on the
streets when the wind reached its
greatest velocity.

Those killed in Indianapolis were
Everett Morris, 34 years old, who
was electrocuted by a fallen wire,
and George Mock, 42 years old, who
was blown from a ladder on which
he was working. Mrs. Eva Con-
ner, 45 years old, was killed when
the cornice was blown from a busi-
ness building in Munice and struck
her in its fall.

Reports from Fort Wayne, An-
derson, South Bend and several
other cities in the northern part of
the state told of buildings being un-
roofed, trees uprooted, plate glass
windows smashed and of general
demoralization of street car, tele-

FAMINE HITS KANSAS CITY

Kansas City, Dec. 1.—Schools,
theaters and all places of amuse-
ment in Kansas City are to be
closed and public gatherings of all
kinds are to be prohibited as a fuel
conservation measure by an order is-
sued Thursday by the local Fuel Ad-
ministration. The order became
effective Sunday.

open only between the hours of 9 A.
M. and 4 P. M. Stores are asked to
follow the same schedule, and churches
are ordered to hold only Sunday serv-
ices. Curtailment of street lighting
hours also was ordered, and it was de-
cided to request that homes be heated
only to 68 degrees.

PATIENT IN AIRSHIP

**Mrs. Bull Flies to Richmond From
Eastern Shore in Naval Plane.**

Richmond, Dec. 1.—Virginia has
an aerial ambulance. After having
found trains, boats and automobiles
uncomfortable for bringing his wife
to Richmond, where she is periodically
treated for spinal trouble, Robert
Bull, of Melfa, on the Eastern Shore,
has engaged a seaplane and is con-
veying Mrs. Bull here by the air
route.

Mr. and Mrs. Bull made their first
trip to Richmond early in the week,
coming and returning to their home at
Melfa within the day. After her ride
through the air, Mrs. Bull, according
to dispatches from Melfa, pronounced
the plane as the most comfortable
means of traveling she has encount-
ered.

The machine, which is known as
"The Albatross," was formerly the A-
5050 of the United States Navy and
on its first trip to Richmond was
piloted by J. R. Adams, a licensed
pilot.

Following their first experience,
Mr. and Mrs. Bull stated that they
would continue to use the seaplane
for the trip to Richmond so long as
Mrs. Bull's spinal condition required
treatment here.

ING APPEALS

the past two years new
ises have brought many
rangers to Alexandria, and with
them numerous people who subsist
upon devices by which they obtain
money. The number of beggars of
different classes has increased,
while solicitors for this and that
movement are many. While some
of those engaged in such movements
are doubtless correct people, the
question might be asked, Are
all worthy of the confidence of the
community? We occasionally meet
strange women disposing of certain
religious literature. They fix no
price upon the same, but tell those
they approach they can pay any
amount they think proper.

Certain persons (generally wom-
en) solicit funds for this and that
out-of-town institution. Their work
may be bona fide, but as contribu-
tors never make any attempt to in-
vestigate, there is room to believe
that much money given in small
sums is as bread cast upon the
waters which will not return after
many days.

Warnings have come from various
quarters of late against the prac-
tice of indiscriminate giving. The
ease with which large sums are
often raised for charitable purposes
has naturally brought fakers of
one kind or another into the field.
Even in many cases where the col-
lectors are perfectly honest, the
cause itself may be of dubious use-
fulness. Bad business methods,
too, have brought discredit upon
many a deserving charity.

It is obvious that personal giving
which takes little or no account of
the condition to be relieved may
be no better than sheer waste.

There will always be plenty of
room for the exercise of benevo-
lence towards the known object and
there are plenty of such in Alexan-
dria. It is the too credulous re-
sponse to appeals from the unknown
that is demoralizing. Those who
need money the most seldom beg
for it. To give to beggars be-
cause they tell a plausible tale, or
to get rid of them, is really a social
offense.

There is the greatest need to re-
frain from this false kind of charity
at a season of the year when the
thought of giving is in everyone's
mind.

WAR ON SPEEDERS

For the curbing of the speed
mania in Richmond, Colonel William
M. Myers, director of the depart-
ment of public safety, is having
prepared by the city attorney an
ordinance with such teeth in it as,
he thinks, will deter irresponsible
persons from satisfying their thirst
for reckless driving.

With the first offense, the of-
fender, in addition to the imposi-
tion of the fine now provided, would
under this proposed law be required
to put up a bond of $500, to be for-
feited upon second conviction, and
be further subjected to a revocation
of his permit to operate a machine
for a minimum period of twelve
months, the revocation to be in the
discretion of the official vested with
that authority; with the second of-
fence, the offender, in addition to
the fine and the forfeiture of the
$500, shall have his permit revoked
and none other will at any time be
granted for operation in Richmond.

Speeders outnumber all other
classes of offenders brought before
the Police Court of Alexandria.
One man who was charged with
this offense on Saturday afternoon
forfeited $10 collateral by failing to
appear, and another was brought in
shortly after ten o'clock this morn-
ing for operating his car at an un-
lawful speed in Rosemont. He was
fined $10.

Fines amounting to $827.50 were
collected during the month of No-
vember, a large percentage of
which was from speeders and others
violating the traffic law.

Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister.

DEATH FOR SLAYERS

Villa Vows Eternal Vengeance for Death of His Chief Aid

El Paso, Dec. 1.—Death by burning at the stake is the punishment Francisco Villa has sworn to inflict on those who had any connection with the capture, arrest, trial and execution of General Felipe Angeles, according to word reaching here last night from Northern Mexico. Villa agents say he had been informed of the death of Angeles, but they refused to say where he was or how the news reached him. Unofficial reports said Villa was near Pilar de Conchos, 50 miles north of Parral, near the scene of the Angeles capture.

Tears rolled down the bandit's cheeks, it is related, when he was told of his chief lieutenant'sh fate, and seldom have his followers seen their leader weep. They watched in amazement. Villa's grief was succeeded by ungovernable rage. He made a speech, declaring eternal enmity to President Carranza and promising to avenge Angeles' death by burning all who had any connection with it.

GOVERNMENT SEIZES COAL

Chicago Schools Will be Closed for a Month as Well as Non-Essential Plants

Chicago, Dec. 1.—While governors of coal producing States were holding a conference to make plans to save the country from the coal famine, T. W. Proctor, chairman of the regional coal committee, announced yesterday the government had seized all coal in Chicago.

He instructed the Chicago Coal Merchants' Association to form a committee to distribute coal at the government's direction.

George W. Reed, chairman of the Coal Merchants' Committee, announced he would ask that the schools of the city be closed for a month. He said the list of non-essential industries had been extended to include packers plants and clothing manufacturers. He said the Chicago packers had coal enough to maintain steam for fire protection, but not for operation.

MOB KILLS A NEGRO

Foxworth, Miss., Dec. 1.—Immediately after he had been identified by a white girl as the man who had attempted to attack her, Neville Foxworth, negro, was taken from officers by a mob and shot to death here, late Friday.

The girl, on her way from school, said the negro followed her in the woods. She ran and he gave chase, but she outran him. She had recognized the negro, however, and his arrest followed. A mob formed and immediately overpowered the officers and shot the negro to death.

SENATOR INDICTED

Million Dollars Alleged to Have Been Spent to Elect Newberry in Michigan

Grand Rapids, Mich., Dec. 1.—Truman H. Newberry, United States Senator from Michigan, was indicted by a United States grand jury Saturday for corruption, fraud and conspiracy in connection with the election by which he obtained his seat in the Senate, defeating Henry Ford, his Democratic opponent.

Judge Sessions indicated that the evidence before the grand jury disclosed the fraudulent expenditure of between $500,000 and $1,000,000 in connection with the election.

With Newberry, 133 other persons were indicted by the grand jury on the same charge. The names of all but twelve most prominent were withheld from publication by Judge Clarence W. Sessions, presiding, until warrants could be served on them.

Among those named were H. A. Hopkins, of St. Clair, Michigan, principal legislative clerk secretary of the United States Senate; John S. Newberry, brother of the Senator, Detroit, and Paul H. King, of Detroit. King was manager of the Newberry campaign committee.

Government officials asserted the testimony presented to the grand jury had revealed a political scandal that in many respects was without parallel in American annals.

It was alleged voters were bribed, election boards corrupted, editors subsidized and moving picture theaters bought up in the endeavor to defeat Henry Ford first in the primaries of both parties, and later, when he had won the Democratic nomination, in the election itself.

YEGGMEN GET $63,000

Blow Safe, Then Have 'Dutch Lunch'—Entertain Captives

Omaha, Neb., Dec. 1.—Robbers blew the safe of Hayden Brothers' store, one of the largest retail houses here, at midnight Saturday after they had bound and gagged two watchmen, and escaped with $63,000 in cash, securities and other valuables.

After satisfying their monetary desires, the thieves feasted on "Dutch lunch" from the grocery department, sang and danced for their captives for three hours, paid each $20 "for his trouble" and departed at daylight.

It is believed that the safeblowers secluded themselves in the store during the rush hours Saturday and remained there when the place closed at night. After overcoming the watchmen, they took rugs from the drapery department to muffle the explosions and blew the safes with nitroglycerine.

Joseph Hayden, president of the firm, asserted that the cash in the vault amounted to $30,000. Among the loot also were many Liberty Bonds belonging to employes.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

MOTHER AND CHILDREN DIE

Husband Discovers Tragedy; Wife's Duties Caused Despondency

New York ,Dec. 1.—Mrs. Louise Bosholde, 28 years old, gathered her four children in a room in her home here last night and turned on two gas cocks in a kitchen range because, according to the police, she was despondent over the prospect of raising a family and assisting her husband in business at the same time.

When her husband, who worked in his bakery on the floor below, entered the room he found his wife and three children dead, but a two weeks old infant will live. Chas. six; Louise, three, and Henry, eighteen months, died with their mother.

COAL SUPPLY SHORT

Petersburg, Va., Dec. 1.—With less than a month's supply of coal on hand, the manufacturing plants of the city have been informed that no more fuel will be available until the strike is settled. The order curtailing the delivery of coal came to W. J. Strickler, agent of the Norfolk and Western Railway, from headquarters of the Pocahontas regional coal committee at Roanoke. Officials of manufacturing plants declare that unless the restrictions are lifted within thirty days, their factories will be forced to suspend operations. This action would throw several thousand people out of work.

FATAL AUTO PLUNGE

Son Born to Daughter he Was Going to Washington to Visit

Cumberland, Md., Dec. 1.—The body of Frank W. Bacon, aged 55, head of the Bacon Motor Corporation, Newcastle, Pa., who was killed when his automobile went over the bank on the Baltimore turnpike as he was about to ascend Martins Mountain, seven miles east of Cumberland Friday, is being held here pending the arrival of his son in law, Walter S. Penfield, 2308 California avenue, northwest, Washington, D. C.

Mrs. Bacon, who was with her husband and escaped with a cut over the eye, is at the Western Maryland Hospital. Her injuries are of a minor character. The body of Mr. Bacon shows only a bruise on the chin and the absence of abrasions would indicate that he was squeezed to death.

The Bacons left Uniontown yesterday morning after spending the night with the idea of reaching Washington late this afternoon to eat Thanksgiving dinner with their daughter. The machine jumped on a curve as the ascent of the mountain began and Bacon lost control. The car turned over three times and landed on the wheels. The descent, was 150 feet and almost perpendicular. The car was little damaged except for a broken top. It was one of Mr. Bacon's own assembled machines.

When the Penfield home was notified by long distance telephone of the accident the nurse who received the message sent one in return that a daughter had been born to Mrs. Penfield but a short time before.

Methodist Church Enters Ypres and Brussels

GREAT MEMORIAL CHURCH WILL BE ERECTED IN DEVASTATED BELGIAN CITY.

Brussels To Be Center of Large Enterprise On the Part of Southerners.

* Nashville, Tenn.—A great Methodist Church, erected and maintained by the Methodist Episcopal Church, South, will be erected amid the ruins of Ypres, in Belgium. This was stated by Dr. W. B. Beauchamp, director-general of the Centenary Commission who, with Bishop James Atkins, the bishop in charge of European mission fields, just returned from Belgium.

The city of Ypres, terribly devastated, will not be rebuilt in its entirety. The once magnificent Cloth Hall, the finest in the world, the Cathedral, the town hall, the churches, and other large ruins will be left as a perpetual memorial.

On these the city mayor has caused signs to be erected, reading: "This is holy ground. No stone of this fabric may be taken away. It is a heritage for all civilized peoples."

A City of Memorials.

Ypres is a city of memorials. The British government has selected a site and will erect a great museum as a monument to her fallen heroes.

Similar buildings will be built by Canada, New Zealand, Australia and Belgium.

In the midst of these memorials the Southern Methodist Church will be erected. It will contain a library, reading room and social equipment, in addition to its auditorium and class rooms.

"Ypres will always be a mecca for travelers," said Dr. Beauchamp "Thousands and millions will flock to that battlefield. Our Church will not only minister to the people of Ypres and the surrounding territory, but it will also serve these visitors."

Great Plant in Brussels.

The Methodists have also purchased a great building in Brussels, which will be their headquarters for Europe It will contain offices, an auditorium, reading and lecture rooms, a publishing plant and social equipment.

The general secretaries of the two Protestant bodies of Belgium, the state Church and the free Church, will have offices in this building, thus making it the Protestant center of Belgium.

Southern Methodists have also purchased a half interest in the Protestant hospitals of Brussels. It will be enlarged and its capacity will be doubled.

Relief Stations Established.

Dr. Beauchamp reported that thousands of children will freeze to death this winter, because the Germans flooded the mines and filled them with concrete, thus making it impossible for the people to obtain fuel.

"Children with their mothers," said Dr. Beauchamp, "are now living in the abandoned trenches and dug-outs left by the enemy."

In order to cope with the situation the Methodists have arranged to open relief stations at Ypres, St. Quentin, Montdidier, Belgrade and other points.

A full contingent of physicians, nurses, directors and social workers will be sent abroad as soon as they can be found.

The Church has a fund of $5,000,000 for European construction work. This will be spent in Servia, France, Belgium, Poland and Bohemia.

Revival Planned For Entire South

Widest Evangelistic Effort Ever Made Will Be Launched Soon.

Nashville, Tenn.—Plans for an evangelistic movement which will cover the entire South and operate in 20,000 churches at the same time are being formulated by the Centenary Commission and the evangelist committee of the M. E. Church, South.

Bishop U. V. W Darlington is the chairman of the joint directing committee and Dr. O. E. Goddard is the executive secretary.

Standard Plan Made.

The movement will operate according to a standard plan. This plan provides for a preliminary survey of the entire South to discover what persons are not affiliated with any religious denomination.

Dr. A. C. Zumbrunnen is in charge of the survey, and he has made preliminary investigations in a large number of typical sections as samples to guide pastors in surveying their own fields.

When these surveys are completed the evangelistic movement will be launched in an effort to interest all non-church members whose names have been secured.

It has been estimated that half a million workers will be enlisted to personally interview the persons who have no church membership.

ONE GAME MR. THRIFTLESS CAN'T PLAY

STEEL MASTER BEGAN TO SAVE WHEN YOUNG

Recognized That Success Lay In Sound Investment—Safest Security in World Is Now Offered By Government.

Andrew Carnegie died not long ago, leaving behind him $36,000,000. He had given away about $300,000,000 in an effort to avoid the reproach of dying rich.

It is probable that the high cost of living gave the "steel master" little worry during the latter half of his life, but it is certain that in his boyhood the prices of the necessaries of life were vital factors. And Andrew Carnegie in his early years met the cost of living with the same remedy which America's leaders, headed by President Wilson, are now putting forth as the basic principle of the fight to withstand the menace that lurks in the soaring prices of today. That remedy is thrift—the practice of saving, the elimination of waste and sound investment.

In the days when Andrew Carnegie, 14 years old, earned $1.20 a week as a bobbin boy in an Allegheny City cotton mill, and later when he earned $11.25 a month as a telegraph messenger boy, the cost of living meant much to him. He had little margin for saving. But he did save. There were few opportunities for the small saver to make safe investments. Securities were not issued in small denominations. There were no Thrift Stamps or War Savings Stamps, backed by the government, into which the meager proceeds of the Scotch boy's thrift could be converted.

But Andrew Carnegie at the age of 20 determined upon safe investment. The soundest securities that offered were 10 shares of stock in an express company worth $600. Carnegie had to borrow part of the money he paid. But he was convinced that savings lying idle were not performing their proper function.

The American man or woman, boy or girl of today does not have to borrow to add to the savings fund in order to find safe investment. The government makes sound security in the form of Savings Stamps, Trtasury Savings Certificates, and war bonds available to every saver who will begin to practice thrift by the regular investment of sums as small as 25 cents.

Every American today has a better opportunity for success than lay before Andrew Carnegie when he faced the world.

NOW AND THEN

What is a dollar? Foolish question—you say? Not at all these days of H. C. L. and profiteering. Certainly a dollar isn't what it was ten years ago. It isn't what it will be five years from now.

A dollar is what you can get for it in beans, butterflies or bunk—no more, no less. A dollar wouldn't be worth anything if you couldn't get anything for it.

Ten years ago you bought, say, bunk at one dollar a portion. Now bunk costs two dollars. That doesn't mean it has doubled in value. It means that your dollar is worth half what it was ten years ago.

This is, therefore, not the time to spend too many of your dollars. They will bring you only half of what they are worth. This is the time to ave them.

They will bring more later on. That is the history of dollars. Values run in cycles. As surely as you live five years a dollar will be worth more than it is now. Maybe twice as muh. So when you save a dollar now you are perhaps saving two dollars. Treat dollars as you would any other commodity. Buy them when they are cheap.

Stick every dollar you can into War Savings Stamps. Carrying 4 per cent interest compounded quarterly, a War Savings Stamp bought this month for $4.23 will be worth $5 January 1, 1924. By 1924 if the dollar is worth twice as much as it is now you will really have ten dollars for the $4.22.

SAVING GROWS EASIER AS HABIT TAKES HOLD

Young People Must Be Brought to Realization of What Future Means to Those Who Spend Wisely.

It is easier to spend money than it is to save. It is also more fun—at first. But money that is spent does not work for you. It is gone, and is working for somebody else.

It is as hard to make young people realize the necessity of saving as it is to make them realize that they are not always going to be young. It is so easy to be young and reckless.

But habits of thrift have to be taught. They also have to be formed by practice. That means that the rising generation must be taught to capitalize its youth, and in childhood shown how to distribute and allot such income as it may have.

That indeed, is a large part of civilization. The savage lives today. The civilized man lives today with an eye upon tomorrow In order that tomorrow may be as secure as today he saves some of today's goods for tomorrow's use.

The war taught many people how to save; it taught other people how to spend. The wise spender is the wise saver, but the emphasis is on the "wise" and not on the "spending."

Education in thrift is an education in good citizenship and in good morals. The person who is being taught to save is also being taught to forecast the future and to make tomorrow better because of wise living today.

The government of the United States is offering to men, women and children the opportunity to invest savings in safe and profitable securities.

ARE YOU A CAPITALIST?

The dictionary defines a "capitalist" as one who has a "pecuniary surplus." The dictionary is wrong.

A capitalist is one who has a pecuniary surplus "which is invested."

Are you a capitalist?

You are if you are buying War Savings Stamps or Treasury Saving Certificates. They represent "pecuniary surplus" or, in simple English "savings," and they make your money work by bringing to you 4 per cent interest, compounded quarterly.

Are you a capitalist?

Secretary of Commerce Redfield recently said to the Cleveland advertising men, "There are 64,000,000 subscribers to our Liberty Loans. I suspect that many a factory is manned as I know some government services are, by a force from top to bottom of capitalists, in varying degrees, but not the less really."

Don't kick about the high cost of living. Beat it by trimming your sails and buying War Savings Stamps. The capitalists are not kicking about the high cost of living.

Why?

Because they have money at work Cut your expenses to the bone. Invest in War Savings Stamps.

Be a capitalist.

SCOTCH SONGS TO DATE

If a body meet a body
Coming through the rye:
If a body save a dollar
Why, then, bye and bye,
When the shiftless people holler
"Money's Scarce and tight!"
He who saves the nimble dollar,
Will come through all right!

Should auld acquaintance be forgot
And never come to mind?
Why, no!—unless he is a sot
And better left behind.
But one thing you must not forget,
A thing more true than funny:
"When your mind on saving's set
It's easy saving money!"

Knowing War Savings Stamps are a good investment won't do you any good unless you back up the knowledge with your money.

Follow the example of rich men if you would be rich. They make their money work for them. You can do it by buying War Savings Stamps.

Creighton Hale, the popular star, will appear in "The Black Circle," at the Ingomar Theatre tonight. This is an exciting story of a small town newspaper's cleaning out a gang of smugglers who had been terrorizing their district.

Pearl White in Chapter 2 of "The Black Secret."

GRAND THEATRE

A treat for "movie" lovers is in store at the Grand Theatre tonight when dainty Marguerite Clark will appear in a Paramount screen version of "Prunella," which will be remembered as her greatest stage success some years ago. A story of "Love in a Dutch Garden" as its authors, Granville Barker and Laurence Housman called it, the picture is even more beautiful than the stage version and under the expert direction of Maurice Tourneur, has become a most unusual production. The cast includes Jules Raucourt, who recently appeared in support of Pauline Frederick in "La Tosca," as the Pierrot who falls in love with Prunella and abducts her from the prim home of her aunts, only to desert her later. How he finds that after all he cannot live without her and returns to her old home in the hope that she too will come, is skillfully and charmingly shown in this new Marguerite Clark Paramount picture. Also 3 chapter "Smashing Barriers."
